15th ACA Annual Cashew Conference

September 15, 2021

Ladies and gentlemen,

Good morning. My name is Joey Liao from China on behalf of MEYER, a world-leading company specializing in color sorters and X-ray machines, especially in cashew sorting solutions. It's my great joy to be here at this online conference. As the representative of MEYER, the title sponsor of this opening ceremony, I warmly welcome you to the 15th ACA Annual Cashew Conference. Actually, this is my fifth time attending the ACA conference, and this is the second time the conference has moved from a physical location to an online meeting. We really appreciate this platform which offers us the chance to get to know Africa, to encounter Africa's cashew processing industry in the form of an annual conference.

We are grateful to meet all of you through the online conference. Most important and until now, we have sold hundreds of sorting machines to this great potential land, from West Africa to East Africa, from uncut shell to kernels to splits, brokens, and so on.

We hope for more discussion with you on how Meyer supplies cashew processing industries with adequate and durable cashew sorting machines with leading technologies.

Finally, we wish all of you and your family safe and sound against the COVID-19 epidemic, together to overcome it soon and shake hands ASAP. If

there is any chance in the future, welcome to China, welcome to MEYER. See you. Thank you for your attention.
